

I urge that you not challenge Indiana State Law concerning the "No Call List."
My family has finally been freed from unsolicited phone calls for the first time
in 23 years. I don't feel that these individuals have any more right to free
speech than I have for freedom from their neverending intrusion into my privacy.
Furthermore, they still can contact me through the mail to convey their requests
for my money, time or whatever it is they are wanting and should I wish to
respond...I will. That is my right.
Thank you for your time.
